Cake Pickup Form

For customers who intend to pick up their custom or specialty cake

Important instructions for preparing your car and delivering your cake

- Plan your delivery time to coincide with the last hour before the event begins.
- The best way to transport a custom cake is either in the back of a van/SUV or in the trunk of a car whose back seats fold down so the air can flow through. If none of those options are available, it is possible to transport a smaller sized cake in the foot well of a car, however this is a last resort due to the potential for sun exposure.
- Please prepare the back or trunk of your vehicle in advance of picking up the cake by clearing out any loose objects and vacuuming/shaking out any debris.
- On warm days, it is imperative that your vehicle have a working cooling unit (AC). Please run it in advance of your pickup until the car's interior is cool.
- Pets inside of the car during a cake transport is strongly discouraged.
- Please adhere to the agreed-upon pickup time.
- Upon arrival at the event venue, be sure to set up the cake in a cool display area away from sunlight (and away from anywhere sunlight might move) without delay.

Cake Pickup Disclaimer

I have opted to pick up my custom or specialty cake instead of having it delivered. I understand that transporting this type of cake requires all of the above pre-arrangements and I agree to prepare my vehicle in advance accordingly.

I acknowledge that once I've picked up my cake, Momma K's Bake Shop cannot be held liable for any damage that occurs during transport, set-up, or display. Once I have the cake, it is my responsibility to transport it directly to the event venue.
